

FACULTY OF MEDICINE

Certificate for doctoral studies funded by scholarship regarding conditions from the scholarship giver

Scholarship holder:	Date of Birth:
Citizenship:	

The Faculty of Medicine at Lund University does not accept PhD students with scholarships from scholarship givers with conditions that infringe on the Faculty's right to decide how the education is conducted or examined.

This means that scholarships with conditions of reimbursements in case the PhD student does not perform according to the study plan, or succeed in the examinations and obtain a degree **are not accepted**.

The scholarship giver hereby certifies that there are no contracts between the scholarship giver and the scholarship holder, or a third party, which implicate that the scholarship has to be reimbursed and/or a penalty has to be payed in case the PhD studies are not completed or performed according to the study plan.
